ADVANCING HEALTH IN ARAB COUNTRIES

THE ARAB HOSPITALS FEDERATION

is the unifying and influential voice
for hospitals and healthcare sector
and a trusted advocate for the Arab world.

At a moment when healthcare is being reshaped by digital innovation, artificial intelligence, workforce evolution, sustainability imperatives, and rising expectations for quality and patient experience, the Arab Hospitals Federation is focused on one clear mission:

strengthening the foundations that enable healthcare systems to transform, grow, and endure.

Through regional and international partnerships, wide network and capacity-building initiatives, AHF works to ensure that transformation is not fragmented or superficial, but grounded in strong governance, resilient institutions, skilled human capital, and patient-centered values.

From representing the collective voice of Arab hospitals with governments, regional bodies, and global organizations to supporting members in strengthening operations, leadership, quality, digital readiness, and sustainability, AHF, a non profit organization, exists to serve its members just as they serve their patients and communities.

Every day. Across borders. With purpose.

AHF isn't here to send you another newsletter or add a logo to your wall. We're here to make sure that when healthcare transforms in this region, your institution is ready—and that you have a voice in how that transformation happens.

If your hospital isn't part of AHF yet, you're missing more than you realize.
Let's change that.
Connect with us at ahfonline@ahfonline.net

Together, we strengthen systems.
Together, we advance care.
Together, we build the future of Arab healthcare.

NOT YET AN AHF MEMBER?

See what you are missing out ...

A Unified Regional Voice

Without AHF, hospitals remain isolated within national systems.

When COVID-19 hit, AHF members had direct channels to share protocols, PPE sourcing strategies, and staffing solutions across 22 countries within days.

Non-members scrambled alone.

Membership connects you to more than 1,700 public and private hospitals, enabling peer exchange, collective problem-solving, and a unified voice that actually gets heard by regional decision-makers.

Direct Access to Policy and Decision-Makers

Non-members watch policy unfold.

AHF members help shape it. In 2025, AHF sits at the WHO table alongside Ministers as national health strategies are discussed and sector-wide challenges are addressed.

AHF has facilitated ministerial roundtables where members engage directly with decision-makers on the future of healthcare. As a member, your CEO can be at the table, contributing to decisions not reading about them later.

Regional Visibility and Recognition

Your hospital might be well-known nationally. Regionally? That's different.

Through AHF's Gold Initiative Certificate, speaking opportunities at major forums, and strategic media placement, members gain the kind of visibility that attracts more patients, partnership opportunities, and top talent.

HE. SHEIKH NAHAYAN MABARAK AL NAHAYAN

Cabinet Member
Minister of Tolerance and Coexistence - UAE

“

AHF platform is very important as it focuses on generating ideas, exchanging knowledge and applying these to improve the quality of healthcare in our region.

”

Capacity-building & Workforce Development

Hospitals without AHF lack access to regionally relevant capacity-building pathways.

Through **AHF Academy**, members benefit from masterclasses, leadership programs, executive bootcamps, and workforce upskilling aligned with real operational challenges faced by hospitals in the Arab world.

Digital Health and AI Readiness

Hospitals outside AHF navigate digital transformation independently.

AHF supports members with practical frameworks for AI adoption, interoperability, cybersecurity readiness, and the transition toward smart, digitally enabled care systems.

Sustainability and Hospital Resilience

Hospitals operating without AHF lack structured sustainability pathways.

AHF equips members with tools, skills, and insights to strengthen resilience, improve environmental performance, and respond to long-term system pressures.

“ The Arab Hospitals Federation has been one of the active and effective entities supporting the Arab healthcare system in previous years, it has enriched the Arab healthcare work with its activities and initiatives becoming a leading healthcare platform convening Arab healthcare leaders and pioneers.

AHF has become a key partner for Arab health ministries and organizations related to health regionally and globally. This will further enhance the Federation's role at the regional and international levels in the coming years.

”

HE. PROF. KHALED ABDEL GHAFAR
Deputy Prime Minister for Human Development
Minister of Health and Population - Egypt

Medical Tourism Readiness and Visibility

Hospitals not affiliated with AHF often struggle to position themselves regionally and internationally.

AHF strengthens medical tourism capabilities, supports ISO-aligned readiness, and enhances visibility through regional and global platforms.

Quality, Accreditation, and Patient Experience Support

Without AHF guidance, hospitals face fragmented approaches to quality and patient safety.

Members gain access to tools and frameworks aligned with international standards that support accreditation readiness, clinical quality improvement, and patient experience enhancement.

Events and Regional Participation

Members are invited to the events led by AHF as well as to high-level regional and international conferences, summits, and strategic dialogues, ensuring their perspectives are represented, their expertise is showcased, and their institutions are connected with key regional and global stakeholders.

“The Arab Hospitals Federation has contributed in achieving numerous strategic and developmental objectives through committed efforts and strong collaboration among health leaders, policymakers, officials, institutions, and partners. We appreciate its efforts and initiatives toward advancing progress and continuous development in the healthcare sector across Arab countries, for a healthier and more sustainable future.”

WHAT LEADERS say about AHF

“

I commend the unwavering dedication of the Arab Hospitals Federation in advancing health and humanitarian initiatives and its long-standing commitment to enhancing health care across our Region.

DR. HANAN BALKHY
Regional Director
WHO EMRO

DR. AHMED EL SOBKY
Chairman
Egypt Healthcare Authority

“

For over 25 years, the Arab Hospitals Federation has been a catalyst for progress in healthcare, and has served as a platform for knowledge exchange, collaboration and advocacy for Arab health issues.

”

“

The Arab Hospitals Federation unwavering commitment to advancing healthcare standards across the Arab world has been a beacon of excellence and innovation. I commend its dedication and achievements in supporting the healthcare services in the region.

Apex Health looks forward to continued collaboration in shaping the future of healthcare for our communities.

JOSEPH HAZEL
Cluster Chief Executive Officer
Apex Health

DR. FAWZI AL-HAMMOURI
President of the Private Hospitals Association
Chairman of the Board of The Specialty Hospital - Jordan

“

Thanks to the AHF, we as hospital managers in the Arab World have become closer together, now there is a strong platform to communicate and cooperate with international Healthcare facilities in smoother, easier, and better ways.
